

Infirmery Health patients may schedule their yearly screening mammogram via MyChart once an order has been placed. A notification similar to the screenshot below will appear on your MyChart home page once you log into MyChart.

The screenshot shows a notification box with a calendar icon and a clock icon. The text reads: "You have an appointment that needs to be scheduled. Make sure to schedule your BI 3D DIGITAL SCREENING MAMMOGRAM BILATERAL to occur on or before Saturday February 18, 2023." To the right of the text is a green button labeled "Schedule now".

To prevent you from scheduling your yearly screening mammogram prior to 365 days from your previous screening mammogram, once an order is placed, MyChart will not display a notification until 50 weeks after your previous screening mammogram that was performed at an Infirmery Health facility. After 50 weeks, a notification will appear and you will be able to schedule your screening mammogram via MyChart.

If you know that your provider has placed an order for your next yearly screening mammogram, but you don't want to wait to self-schedule your next yearly screening mammogram via MyChart, you may call one of the Infirmery Health scheduling departments to schedule your yearly screening mammogram.

To schedule your yearly screening mammogram at the **Mobile Infirmery Breast Center, Hillcrest Breast Center or Saraland Breast Center**, please call **251-435-2490**.

To schedule your yearly screening mammogram at the **Thomas Hospital Breast Center (Fairhope) or Thomas Medical Center Breast Center (Daphne)**, please call **251-990-1042**, then choose option 1.

To schedule your yearly screening mammogram at the **North Baldwin Infirmery Breast Center (Bay Minette)**, please call **251-580-1747**, then press **1** for scheduling.
